

DATA SHEET

Polycom® RealPresence® Group Series Media Center

Design and function for all meeting spaces

The Polycom® RealPresence® Group Series Media Centers are packaged solutions for organizations looking to easily deploy video communications in rooms of all sizes. These pre-packaged solutions feature the latest in high-performance room video conferencing and are customizable to accommodate the needs of the collaboration space. Polycom RealPresence Group Media Centers are the perfect solution for boardrooms, meeting rooms, offices and classrooms in all types of industries.

Clean lines and brushed metal exterior disguise the powerful RealPresence Group Series codec and room-filling stereo audio system. Incredibly sharp and bright high definition LED displays make the participants and content appear as if everyone is in the same room.

Pedestal-mount packages feature single displays of 55, 65 or 84-inches or dual display options of 42, 55, 65 or 84** inches. The 42" configuration uses a powerful sound system integrated into the display. For the other configurations the included audio system contains a subwoofer and two speakers that bring 240 watts of power to the room. A single table top microphone ships standard with all packages along with the Polycom® EagleEye™ HD camera. Your microphone selection can be customized by purchasing additional microphones or the ceiling microphone as accessories.

A spacious 19-inch rack inside the base allows for storage of the RealPresence Group Series video codec and other A/V accessories. Setup is accomplished quickly with easy installation.

Power under the hood

The Polycom® RealPresence® Group Series brings a new standard of efficiency and productivity to your company's meeting rooms. Fully interactive natural HD video, incredible audio and easy-to-use content sharing are brought together seamlessly in a state-of-the-art packaged solution.

Polycom RealPresence Group Series table top Media Center

For smaller more static environments, Polycom offers a 42-inch table top media center. An optional wall-mount kit is available to easily mount the displays onto the wall.

Polycom Media Cart

The Polycom Media Cart is a flexible solution for organizations that want the ability to choose their own displays. The Media Cart has a universal-mount which supports a single 37" to 60" display or dual 37" to 42" displays. The secure cabinet has three interior shelves for equipment or rack-mount the equipment with the optional rack-mount kit. The Polycom Media Cart is designed for even the harshest environments to give you a perfect solution for your most demanding mobile cart requirements.

Benefits

- **Simple ordering, shipping, installation and service**—one part number for the entire integrated system
- **Consistency of Global deployments** with a similar look and feel throughout an organization
- **Easy administration and training** with a standard set of A/V technology in all locations
